Purpose

The Wildcat Writing Center serves to facilitate the writing process of students across the curriculum through a collaboration between the student writer and the student writing consultant. Since consultants assess the writer's needs, assignment, and approach to writing on an individual basis, students who seek help gain a deeper understanding of the demands of a writer as they develop ideas and strategies to further their skills.

The Wildcat Writing Center is available for students at all levels of writing proficiency and for a variety of purposes. Here are several possibilities for seeking assistance:

-  class project
-  college essay
-  creative writing
-  expository essay
-  lab report
-  research paper
-  resumé
-  scholarship essay
-  writing competition
-  writing process

The Mission of the Wildcat Writing Center is to create a community of writers as we increase the writing proficiency level of students at Deep Run High School by providing one-on-one collaborative assistance in writing across the curriculum and in preparation for state and AP testing, college, and beyond.
